

University of Michigan West Medical Campus

We will visit the ultrasound research group in Kresge III on Tuesday, March 30, 2004. The LSI walkway is a good route, and there is a campus bus stop in front of the building on Zina Pitcher. Go in the front door, and take the elevator one floor down to level 3. Exit the elevator left and enter the double doors on the left. There is a small conference room on the right. We'll meet at 9:40 AM.
